Stocks Fairly Active and Steady.

MONEY ON CALL EASY.

Course of the Market for Investment Securities.

WALL STREET, TURSDAY, Dec. 23-6 P. M. THERDAT, Dec. 23—6 P. M. 5

There was a better domand for call loans to-day, and
the borrowing price of money was at no time less
than 7 per cent. Occasionally it advanced to
1-16, and there are traditions that in a few instances % per cent was obtained. As a
matter of fact, the "needful" was in good domand
the day through. In the absence of other causes
the stock market was made to turn almost solely
then the money question. There were no signs of upon the money question. There were no signs of big buyers of stocks, and no evidence of free sellers. Consequently quotations pivoted between the higher prices of one hour and the lower ones of the nexta matter of fact, higher prices got the better of lower ones, for closing figures were, within a fraction or so, the best ones of the day. Briefly, the market closed strong, quiet and composed, but with an under-lying feeling that, with the aid of a little provocaion, it might be made both active and higher. As regards any one particular stock there is little or nothing to say. The smaller professional brokers were as active as usual in their efforts to grind their daily bread out of the fractional changes in prices, but there was no evidence that the bigger profes-sionals were inclined to bring any extra grist to the sionals were inclined to bring any extra great to the mill. In a word, there was nothing in the market sither upon the bull side or the bear side to excite any especial emotion. Prices opened fairly strong, advanced up to lunch time and then fell off. Afterward, perhaps under the exhilaration suggested by stowed terrapin and the Widow Clicquot, better quota-tions were made, and final prices were recorded at nearly the best ones of the day. The long expected decision of Justice Harlan, of the United States Supreme Court in the C., C. and I. C. case, was "sent down" to-day. It is to the effect that the Pennsylvania Railroad is indebted to the C., C. and I. C. road for the sum of \$2,000,000. Unless an appeal to the full bench is made this much litigated question may be considered as settled. Our Philaphia despatch reports nothing better than a trading market. Reading fell from 33% to 33%, Pennnia from 50% to 50%. On the other hand the orthern Pacifics showed some strength, the comnon selling at 31% and the preferred at 56. The market closed duli and steady. In our own market matters closed fairly strong, but without animation, as is apt to happen immediately previous to a great holiday. To-morrow is hopeless, for it is a day nearer still, and Christmas Evo has a traditionary history for being a "dies non" upon the Stock Ex-change. It is likely to add a novelty to-morrow. From what we hear the day is to be given over From what we near the day is to be given over to festivity, and Grafulla's band, in the gallery, will for once, at least, supplant the growls of con-tending bulls and bears upon the floor. "Music hath charms to soothe the savage breast," and it is hoped that both bulls and bears will recognize the

The money market opened active at 6 to 7 per cent for demand loans on stock collateral, and 5 to 5 per cent for similar loans upon government securities. Time loans were made at 5 to 6 per cent, and good paper was discounted at the same figures. In the last hour the market became very active, and a "commission" of 1-16 per day, in addition to 7 per cent, was at one time paid. The closing rate, however, was 5 per cent.

The Governing Committee of the Stock Exchange

has decided to open the exchange at eleven A. M. in-stead of ten A. M. on December 26 and every morn-ing thereafter until January 3. Judge Harlan has rendered his decision in the case of the C. C. and I. C. Railroad Company against the

Pennsylvania Railroad Company. He fixes the amount due the plaintiff at \$2.600,000.

The effect produced upon gas stocks in this market by the announcement of Edison's invention has been very slight thus far. It is difficult to

ascertain just what impression it has made upon holders of those stocks, since the latter are held

altogether for investment and are not called at the Stock Exchange. At Montreal gas stocks fell from 115 to 110 on account of the article in Sunday's HEMALD. It is also reported that at London the prices of gas stocks yesterday depreciated on receipt

of the news.

It is said that the stock market in Montreal presents unusual interest at present. Bank of Montreal shares, which closed on Saturday at 136%, sold yesterday at 132%-a decline said to be due to rear-

rangements of the assets of the bank on the November statement, issued on Saturday, whereby \$1,733,245 is placed under the general heading of "other assets," instead of under the head of "dis counts," as hitherto. The Merchants' and other

bank stocks declined in sympathy.

At the New York Mining Stock Exchange to-day the following sales were made:—

and in some directions the tone was rather more hopeful. There was a fair demand for yarms for Japan and for Madras at full prices; some China merchants also inquiring rather more activoly for shirtings, and at prices slightly below current quotations were inclined to purchase rather more freely. There was not much domand for india, but in other directions the market was generally stoady with small to moderate transactions."
